

## Environmental Policy

Universal Security Systems Ltd is a market-leading supplier and installer of security systems for a wide range of businesses. We pride ourselves on providing a comprehensive package to our clients' with expert technical advice, access to state of the art products from leading manufacturers, and an adaptable installation and maintenance team that meets the demanding standards set by our industry.

USS recognises that its activities have an impact on the environment, and this policy establishes how we will minimise our environmental impact where possible. It aims to ensure the highest standards of environmental management through the application of strict quality assurance disciplines.

USS believes that all aspects of its operation should be carried out in such a manner as to reduce our environmental impact to an acceptable minimum, taking into consideration issues of practicality and reasonable implementation costs. The company will control its activities in order to minimise any negative effect on the environment it might have, In order to maintain these values the company operates an environmental management system certified to BS.EN.ISO 14001:2004. This provides a framework for setting and reviewing objectives and targets.

Our commitment is to:-

- Deliver our services and perform our activities in a way that prevents or minimises associated environmental impacts
- Ensure systems and controls are established to secure compliance with applicable environmental law and other requirements to which we subscribe
- Continually improve our environmental performance, by evaluating our performance and initiating environmental improvement programmes
- Establish and operate systems to manage and reduce the environmental impact of our products
- Implement and operate controls that ensure redundant equipment that we remove from our clients is recycled or recovered wherever possible .
- Monitor and where possible reduce the amount of energy used at our premises and also associated with business travel
- Favour environmentally preferable options when disposing of our wastes, and comply with relevant waste legislation
- Ensure employees and those who work on our behalf are aware of their responsibilities and are trained as necessary, with regard to their environmental impacts
- Continue to operate an environmental management system to ISO 14001 standard

This policy extends to all USS's employees and those whom work on our behalf. Senior management are committed to ensuring sufficient resources are available to achieve these policy objectives
